

# ANIMAL CARE

Animal Care web application is an E-Sale System for Animals, where the sale and purchase of animals take place. We provide a platform where users can purchase animals by their breed, user can sell their animals, and users can purchase food for animals. We also provide services like pet boarding, spa & grooming, veterinary facilities, and exercise and training facilities.

Bootstrap Components we used:

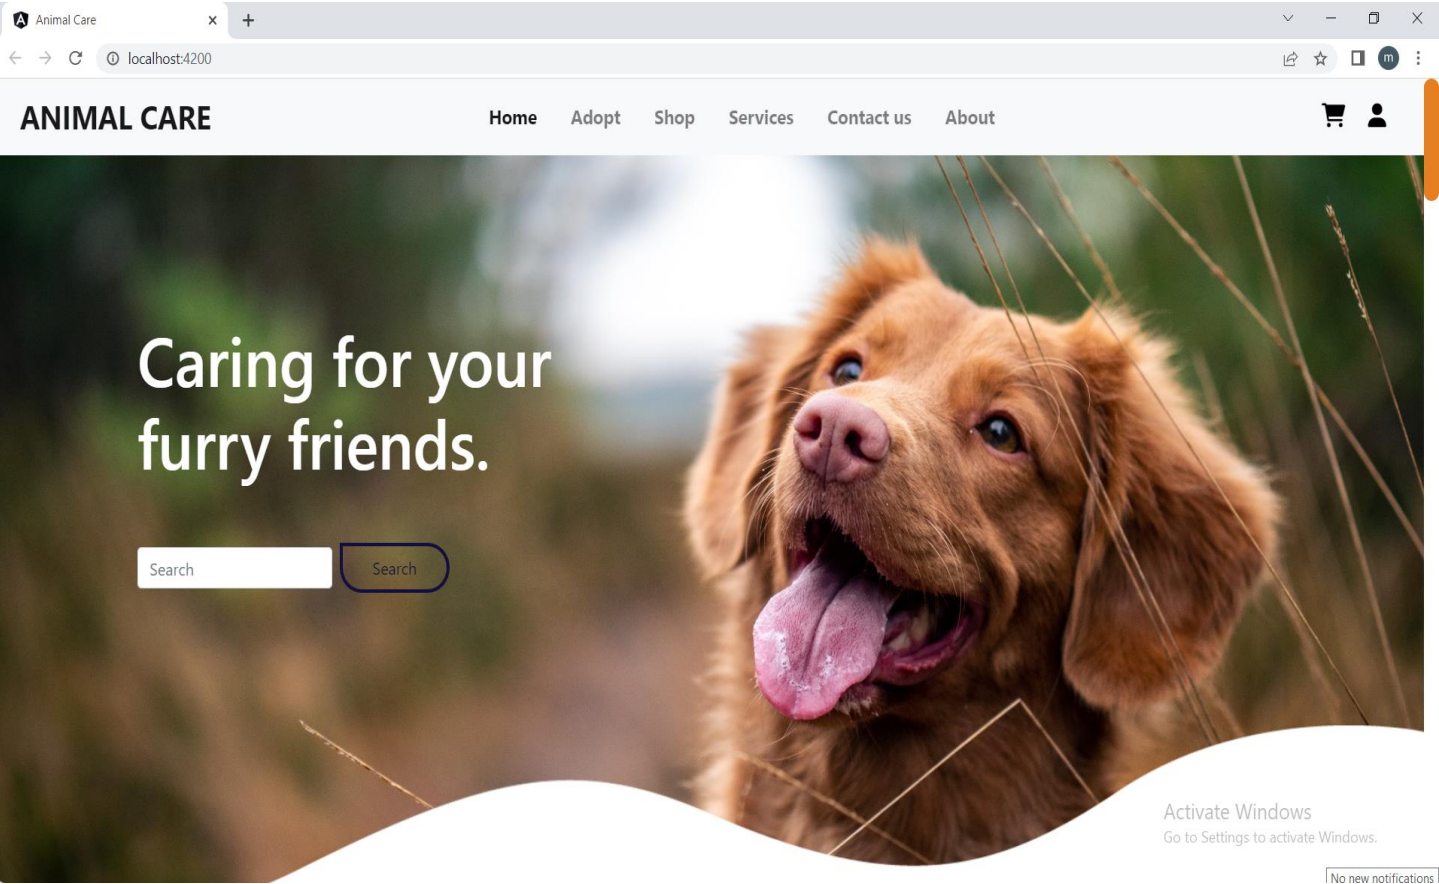

- Navbar
- Cards
- Placeholders
- Buttons
- Forms
- Glyphicon icons
- Footer

Angular JS Features we included are :

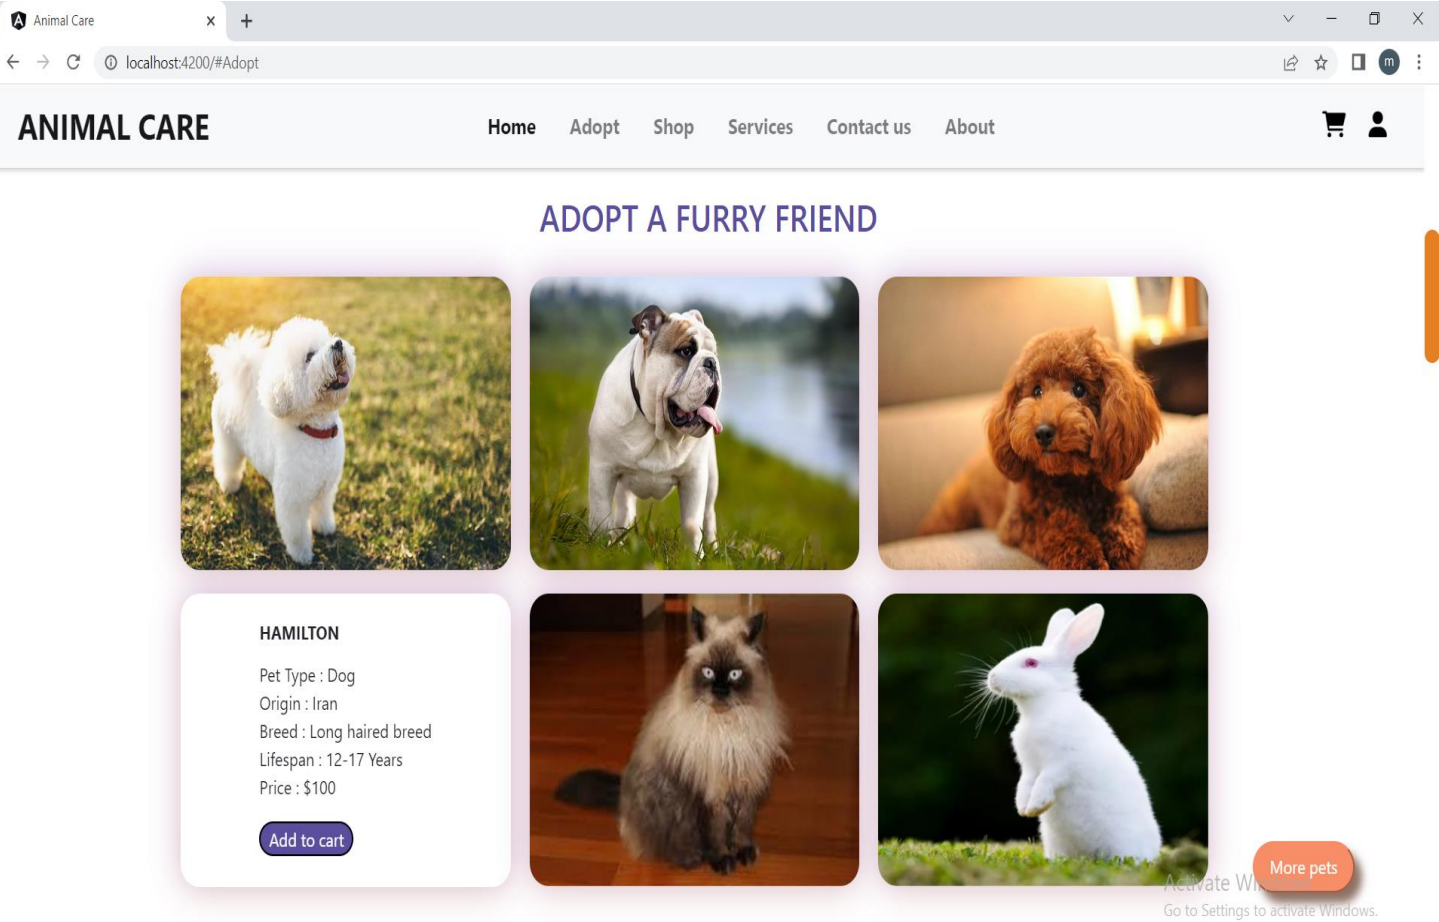

- Directives : ng-controller , ng-model
- Dependency Injection
- Add to cart feature using angular framework and json server

SHOP PAGE :

A screenshot of a web browser displaying a contact form for a website titled "Animal Care". The browser's address bar shows "localhost:4200/#contact". The website's navigation bar includes links for "Home", "Adopt", "Shop", "Services", "Contact us", and "About", along with a shopping cart icon and a user profile icon. The main heading "Contact us" is prominently displayed. On the left, there is a large image of a woman holding a small dog against an orange background. The contact form on the right consists of four input fields: "Your name", "Your email", "Your number", and "Your message". A "Send message" button is located at the bottom of the form. An "Activate Windows" watermark is visible in the bottom right corner of the browser window.
